DATE: 21-02-2020

SUMMARY:

As the cultural activities fosters an understanding of other cultures and helps to develop a new way of thinking and approaching problems. With this motto Kims dental college and hospital has organized “TRADITIONAL DAY” on 20-02-2020

This program was organised by the interns. The whole team was dressed up in different Indian outfits. This event was conducted in an effort to remember our culture and to celebrate it with great enthusiasm and gusto. The students represented outfits of various sates like Andhra Pradesh, Maharastra, Karnataka, kerala and so on which reflected various cultures of India.

This was followed by various cultural and entertainment programs like Rangoli, singing, dancing and flower decoration. The Valedictory function was headed by our principal Dr. V. Shiva Kumar, who distributed prizes to the winners of this program and vote of thanks

was delivered by Dr. K. Sreeha. All the staff, interns and students actively participated and made the program grand success.

REPORT ON FDP

Name of the programme: 3day faculty development programme on the topic
EXTRACTIONS: DECISIONS

Organised by: Department of Orthodontics and Dento-Facial Orthopedics

Resource person: Dr. Harsha

BDS,MDS

Department of orthodontics

Phone: 9885299805

OBJECTIVE OF FDP

- Update the knowledge regarding Extractions: Decisions
- Procedure to teach the students about this
- Teach various orthognathic procedures and treatment planning for cases.

OUTCOME OF FDP

Extractions in orthodontics remain a relatively controversial area. It is not possible to treat all malocclusions without taking out any teeth. The factors which affect the decision to extract include the patient's medical history, attitude to treatment, oral hygiene, caries rates and the quality of teeth. Extractions of specific teeth are required in the various presentations of malocclusion. In some situations, careful timing of extractions may result in spontaneous correction of the malocclusion.

Many factors influence the choice of teeth for extraction, and careful treatment planning in conjunction with good patient cooperation, appliance selection and management of the treatment are essential if an acceptable, aesthetic and functional occlusion is to be achieved.
