Recognized by Govt. of India MH & FW. No: V.12017/5/2019-DE 14.03.2019, Affiliated to Dr.NTR UHS, Vijayawada

## REPORT ON DISABLED-FRIENDLY AND BARRIER FREE ENVIRONMENT

KIMS dental college and hospital has implemented the guidelines of the teaching learning process for inclusion of Person with Disabilities (PWDs) in higher education and to provide the facilities for them as per the National Policy for person with disabilities formulated by “Govt. of India.”

To address all disability related issues in the university the major functions are include:

1. Built environment with Ramps/Lifts for easy access to classrooms
2. Signage including tactile path, lights, display boards and signposts
3. Provision for Enquiry and information: Human assistance, reader scribe for soft copies of reading material, screen reading

### 1. Built environment with Ramps/Lifts for easy access to classrooms

KIMS Dental college aims to design its programs, administrations, and activities accessible to the all the students and authorities of the college are striving to forward a helping hand towards the differently abled. The college has constructed ramps/proper functioning lifts/wheel chairs and supportive staff to cater the disabled persons. The Personnel Department initiates the efforts of differently abled persons while providing them employment in such domains wherein their disabilities are not a hindrance.

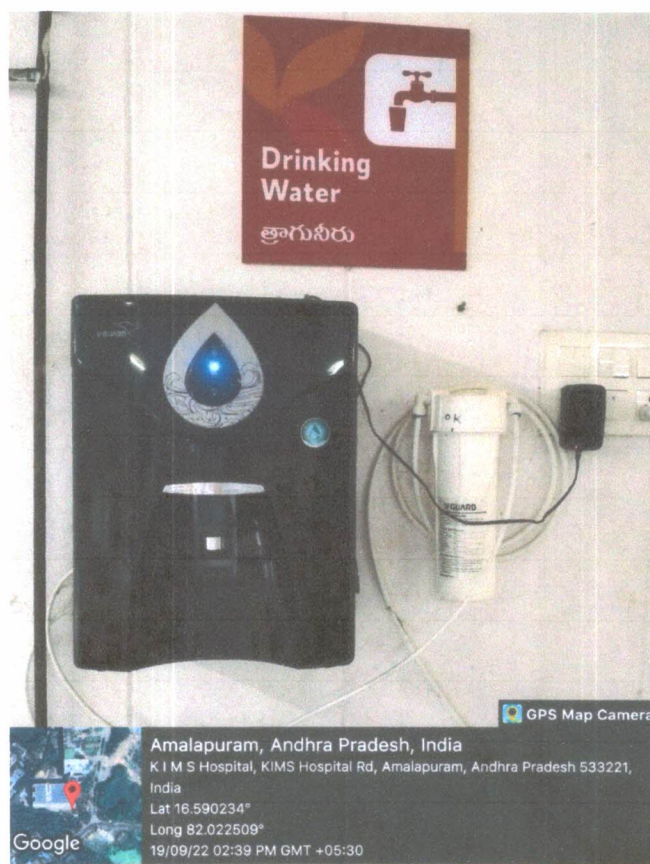

## 2. Signage including tactile path, lights, display boards and signposts

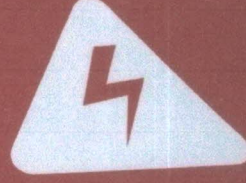

KIMS dental college has lights, display boards, signposts, and posters to show the directions to disabled persons. College has constructed unobstructed footpaths with minimum hindrances in such manner to leave obstacle free walking areas in a straight line on the footpath at either left or right edges of the footpath.

Display Boards are also placed for divyangjan at different areas in campus to provide guidance and support. These signs ensure the safety of the students in case of any emergencies. Directional signage and safety signage, are installed throughout the campus. Buildings are adequately lit for visibility and ensure that the light sources are not suspended. Signage is clearly visible and made from material with matt finish. The use of signage of male and female symbols, in accordance with local customs and standards, with raised outlines and bright color contrast is more evident to everyone and particularly helpful for persons with visual impairments.
