### SUMMARY:

In 1945, the Charter of the United Nations became the first international agreement to affirm the principle of equality between women and men. The UN celebrated its first official International Women's Day on **8 March** during International Women's Year in 1975. The theme for International Women's Day, 8 March, 2022 (IWD 2022) is, "**Gender equality today for a sustainable tomorrow**", recognizing the contribution of women and girls around the world, who are leading the charge on climate change adaptation, mitigation, and response, to build a more sustainable future for all.

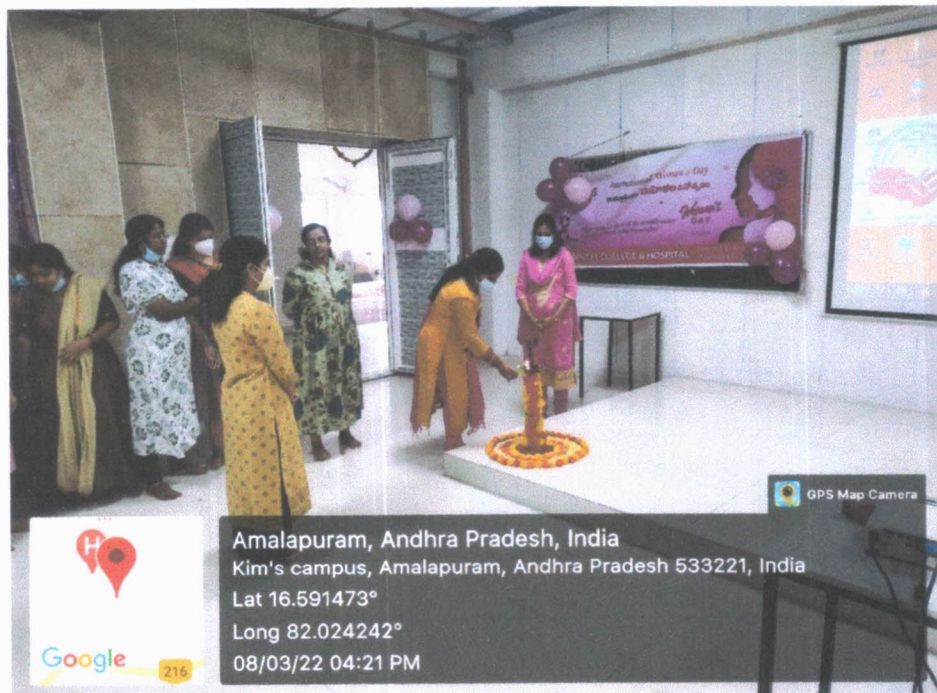

So we at KIMS Dental college and hospital conducted gender equality programme on the occasion of women's day celebrations on march 8<sup>th</sup> 2022 from 3-5pm. The celebrations started with a prayer song and inauguration by male and female staff, followed by speech on womens and gender equality by Dr.Vasudevan head of the department orthodontics and Dr. Avinash assistant professor in the department of

Public health dentistry, they spoke very well about how Now days as women are equally educated and qualified as men, providing them a path can bring out changes in society. As opportunities are given equal to men, the men should also stand in support with them by sharing their routine responsibilities. They should lend help and support to all women in taking care of the family and maintaining the normal well being of family. Similarly women should be given the power to take financial decisions along with men, followed by an AV Presentation on acievements of female staff, dance by a student and singing by staff. Then we had cake cutting by the female staff and students. All the female staff we gifted rose plants by the intern students as a surprise.
